# Successfully Marketing Clinical Trial Results

Winning in the Healthcare Business

By **Günter Umbach**

In the US alone, pharmaceutical companies spend around \$7 billion a year on clinical trials for drugs; all this in a global market where increasing competition and pressure on healthcare financing are both impacting on margins and profitability.

One solution for pharmaceutical companies lies within the clinical trials themselves. If only you can communicate the trial findings to the right people, in the right way, you can benefit from this huge investment and add significant value to your product range and your brand.

*Successfully Marketing Clinical Trials Results* is a comprehensive guide for every marketing professional faced with the challenge of using marketing to convert scientific data into sales. The book offers you practical knowledge on how to use medical research data to maximise the revenue from your products.

In this book are answers for everything from how to handle class-effect questions to developing a shared brand vocabulary. There are plenty of vivid examples and real-life applications to reinforce the ideas. Cases studies illustrate solutions to problems; checklists and tips will help with implementing the suggestions and recommendations.

Günter Umbach has distilled the essence both of 25 years' experience in the healthcare market and of his highly successful seminar series on marketing clinical trials into the professional advice given in this book.

The text is accompanied by a CD ROM containing detailed Powerpoint slides supporting each of the (over 300) techniques that you can use in your marketing team meetings to develop great ideas of your own.

## **About the Author**

Dr Günter Umbach's company ([www.umbachpartner.com](http://www.umbachpartner.com)) provides training and consulting services to marketing professionals in healthcare companies. He has worked as product manager, medical director and marketing director in the pharmaceutical industry. When he became the international team leader for a billion-Euro brand, the team achieved the highest sales in the history of the product.

Clients benefit from his insights as research fellow at a major American university, as board-certified gynaecologist and as member of several medical and scientific societies. He has experience as a lecturer at two German universities, a faculty member at a European management centre and an instructor in advanced courses on marketing.
